## LA NOSTRA STORIA

1963-2020

57 anni di storia non si possono raccontare in poche righe.

Ogni giorno, dalla nascita dell'azienda Galbiati Fratelli, l'esperienza matura e si completa sempre di più.

Le creazioni nascono dalla combinazione tra la lavorazione tradizionale e quella tecnologica di ultima generazione.

Ogni pezzo d'arredo può avere alcuni componenti in fusione realizzati con la tecnica dello stampo in sabbia o a cera persa, abbinati ad altri pezzi tagliati dal materiale pieno con la tecnica del lasercut o del waterjet.

Le volute ed i riccioli sono in barra piena curvata a mano dove, seguendo una forma vengono modellati a caldo.

Sono incorniciati in strutture lavorate meccanicamente con utensili a controllo computerizzato.

## OUR STORY

1963-2020

57 years of history can not be told in a few lines.

Day by day, since the birth of Galbiati Fratelli Company, we've gained more experience and become more mature.

The creations are born from the combination between traditional processing and the latest technology.

Each piece of furniture may have some cast components made with sand or lost wax technique, combined with other pieces cut from solid material with the lasercut or waterjet technique.

The scrolls and curls are made of bars formed by hand, following a design, while they're still hot.

They are framed in mechanical structures with computer monitoring systems.

Galbiati began its production in the 60s with a small number classic furniture, coffee tables, mirrors, consoles, small armchairs and chairs. In the 70's and 80's the brass and wrought iron beds for Italy and Europe, with a wide range of classic and modern models.

Today the company has come to perfectly realize "tailor made" projects.

Unique pieces made on demand, finely decorated banisters, fine detailed classic and contemporary furnishings, built with precision and finished with patience and accuracy, to meet customer expectations.

# GALBIATI

## ARTIGIANATO ARTISTICO

Il punto d'inizio è un semplice foglio bianco su cui iniziare a sviluppare le linee e le proporzioni di un prodotto. Da qui si passa alla progettazione vera e propria di ogni componente per dare poi inizio alle lavorazioni.

Tutti i prodotti sono lavorati con metodi artigianali. La mano dell'uomo è il primo strumento di lavoro, ogni movimento è guidato dall'esperienza acquisita nel corso di anni di pratica e passione.

L'ottone grezzo, in tubi, barre o in fusione, viene modellato e lavorato finemente, lucidato, eventualmente dorato o argentato e infine protetto con una vernice a forno trasparente per garantire la sua preziosità nel tempo.

## ARTISTIC HANDICRAFT

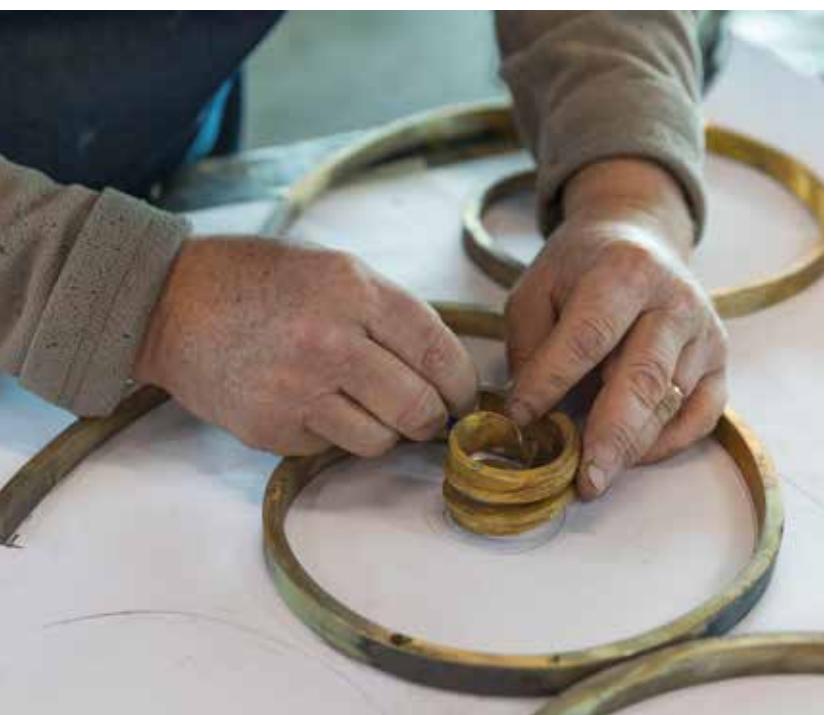

The starting point is a simple white sheet on which developing the lines and proportions of a product starts.

From here we move on to the actual design of each component to then start the work.

All products are processed with artisanal methods.

The human hand is the first tool of work, each movement is guided by the experience gained over the years of practice and passion.

The raw brass, in pipes, bars or in casting, is modeled and worked finely, polished, possibly gilded or silvered and finally protected with a transparent oven varnish to ensure its preciousness over time.

# EXCLUSIVE INTERIORS

Galbiati è una realtà capace di fondere la cultura classica con l'ingegnerizzazione contemporanea.

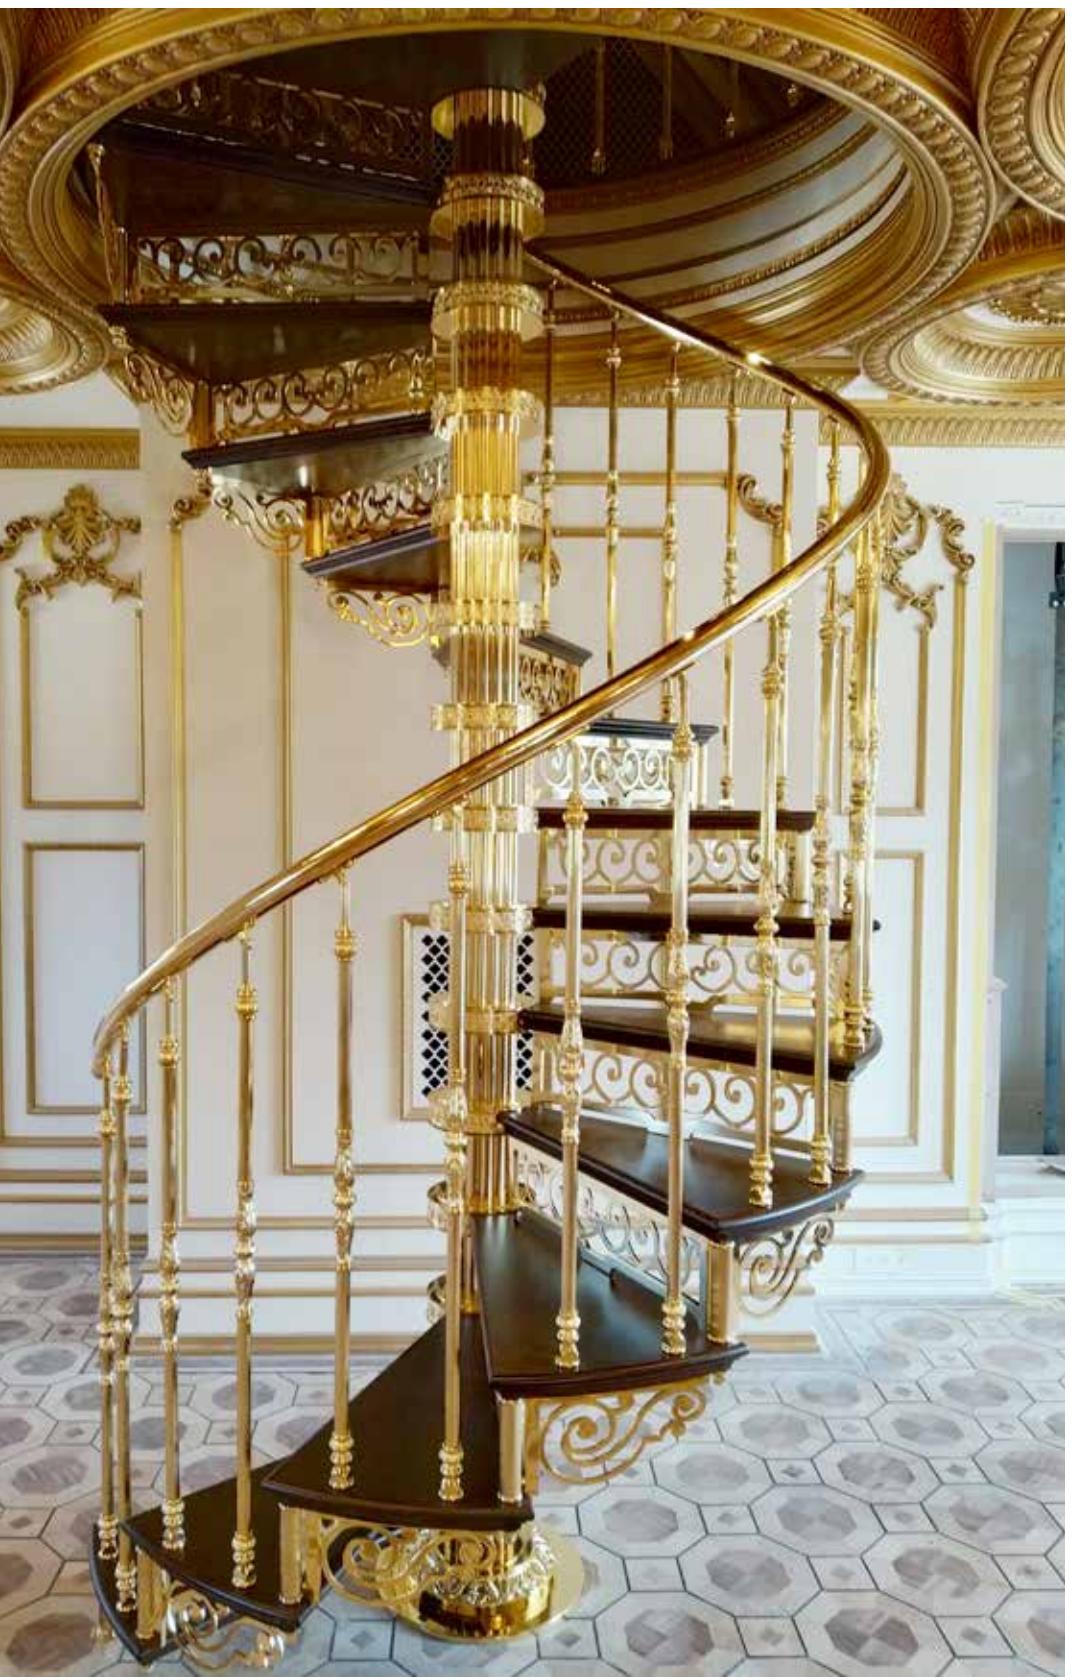

La profonda conoscenza del materiale, i segreti della sua lavorazione e la continua ricerca estetica portano Galbiati ad affermarsi tra le più prestigiose aziende artigianali della lavorazione del metallo.

Alla base del successo che ha riscosso e riscuote in tutto il mondo, c'è, oltre alla qualità eccelsa delle sue lavorazioni, la capacità di adattare la propria produzione alle esigenze del cliente.

Galbiati is a reality capable of combining classical culture and contemporary engineering.

The profound knowledge on the material, the secrets of processing and the continued aesthetic research Galbiati at a high level among the most prestigious craftsmen of metalworking.

At the basis of the success it has collected and collects around the world besides the excellent quality of its work process, there is also the ability to adapt its production to the customers' needs.

## SB 27

### BALAUSTRA MOD. SB27

Balaustra in ottone, finitura bagno oro lucido.  
Volute in barra curvata a caldo, con foglie, fiori e  
dettagli in fusione.  
Inserti in lapislazzulo.  
Corrimano in ottone massiccio.

### BALUSTRADE MOD. SB27

Brass balustrade, shiny gold plated finish.  
Curls in heat-curved solid square bar, with leaves,  
flowers and details in brass casting.  
Lapis details.  
Handrail in massive brass.

## SB 26

### BALAUSTRA MOD. SB26

Balaustra in ottone, finitura bagno oro lucido.  
Volute in barra curvata a caldo, con foglie, fiori e  
dettagli in fusione.  
Inserti in lapislazzulo.  
Corrimano in ottone massiccio.

### BALUSTRADE MOD. SB26

Brass balustrade, shiny gold plated finish.  
Curls in heat-curved solid square bar, with leaves,  
flowers and details in brass casting.  
Lapis details.  
Handrail in massive brass.

## SB 25

### BALAUSTRADA MOD. SB25

Balaustre in ottone anticato.

Corrimano e fusioni in ottone lucido.

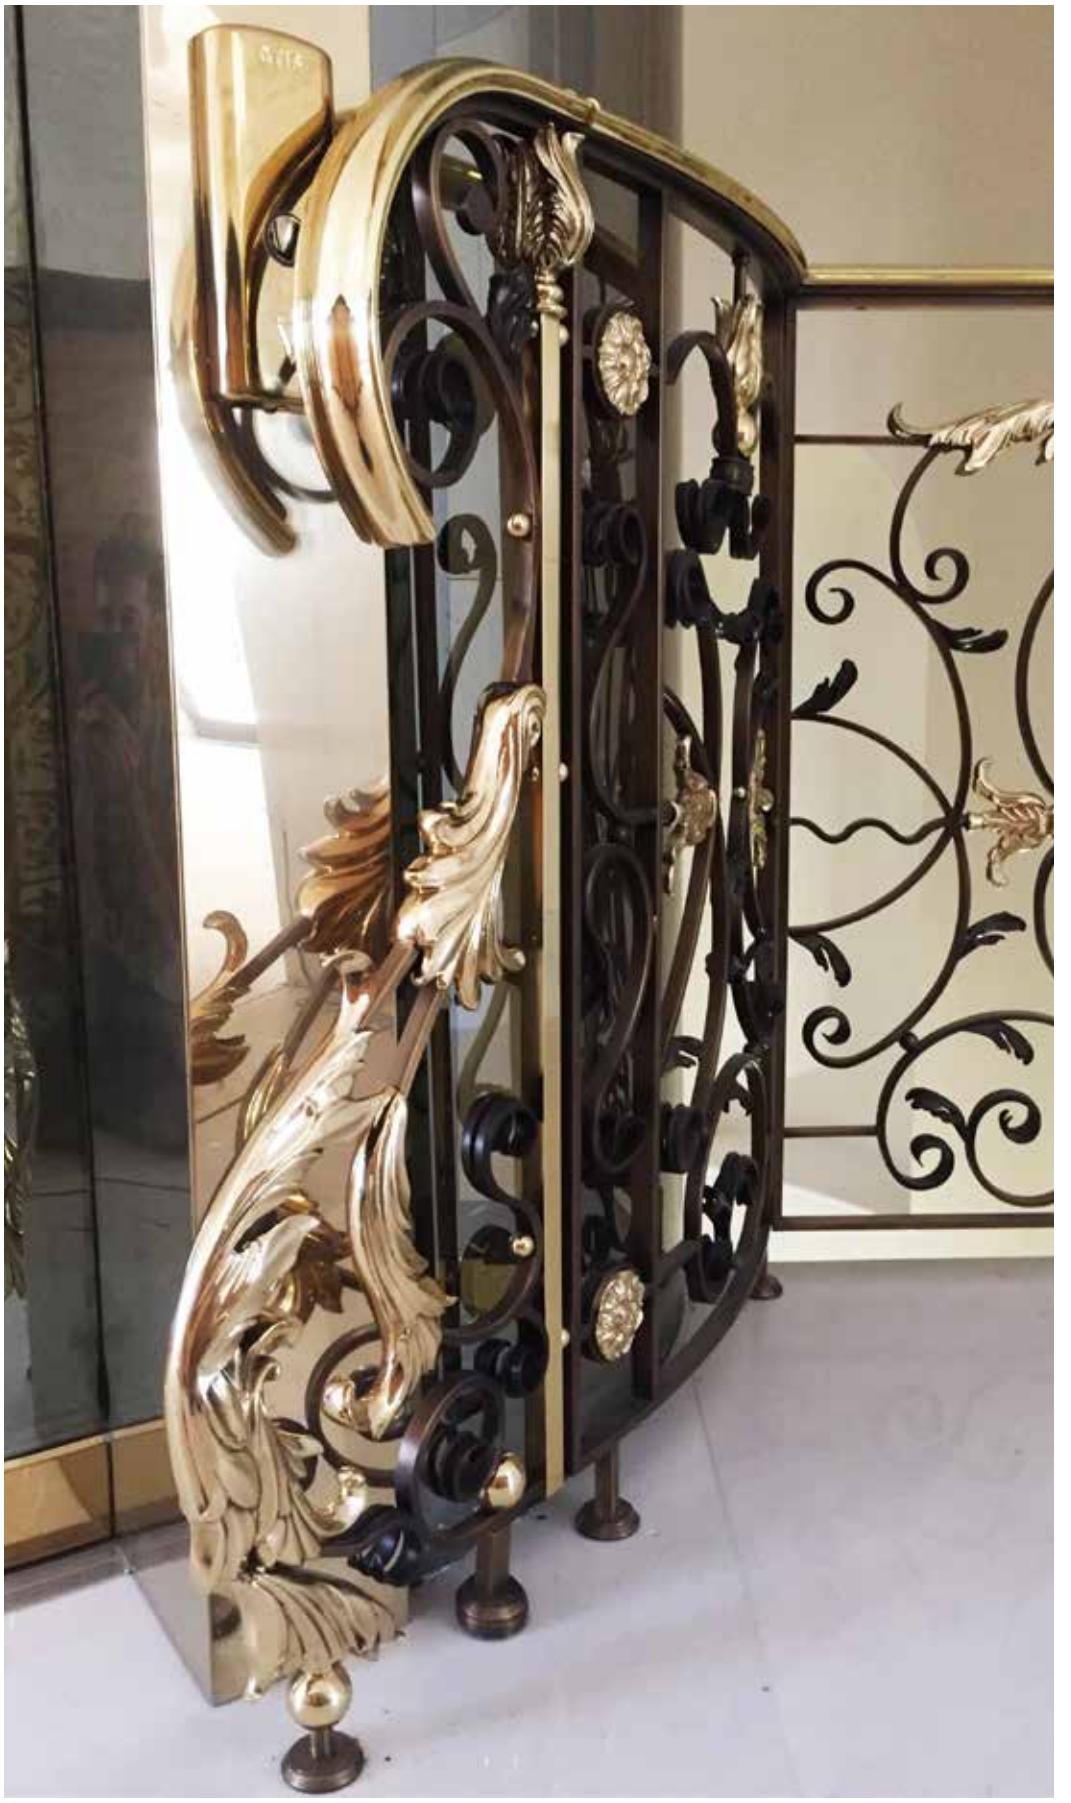

La fusione centrale raffigura il “Re Sole” Luigi XVI

### BALUSTRADE MOD. SB25

Brass balustrade, antique brass finish.

Handrail and cast details in shiny brass

The central fusion depicts the “Sun King” Louis XIV

# SB 21

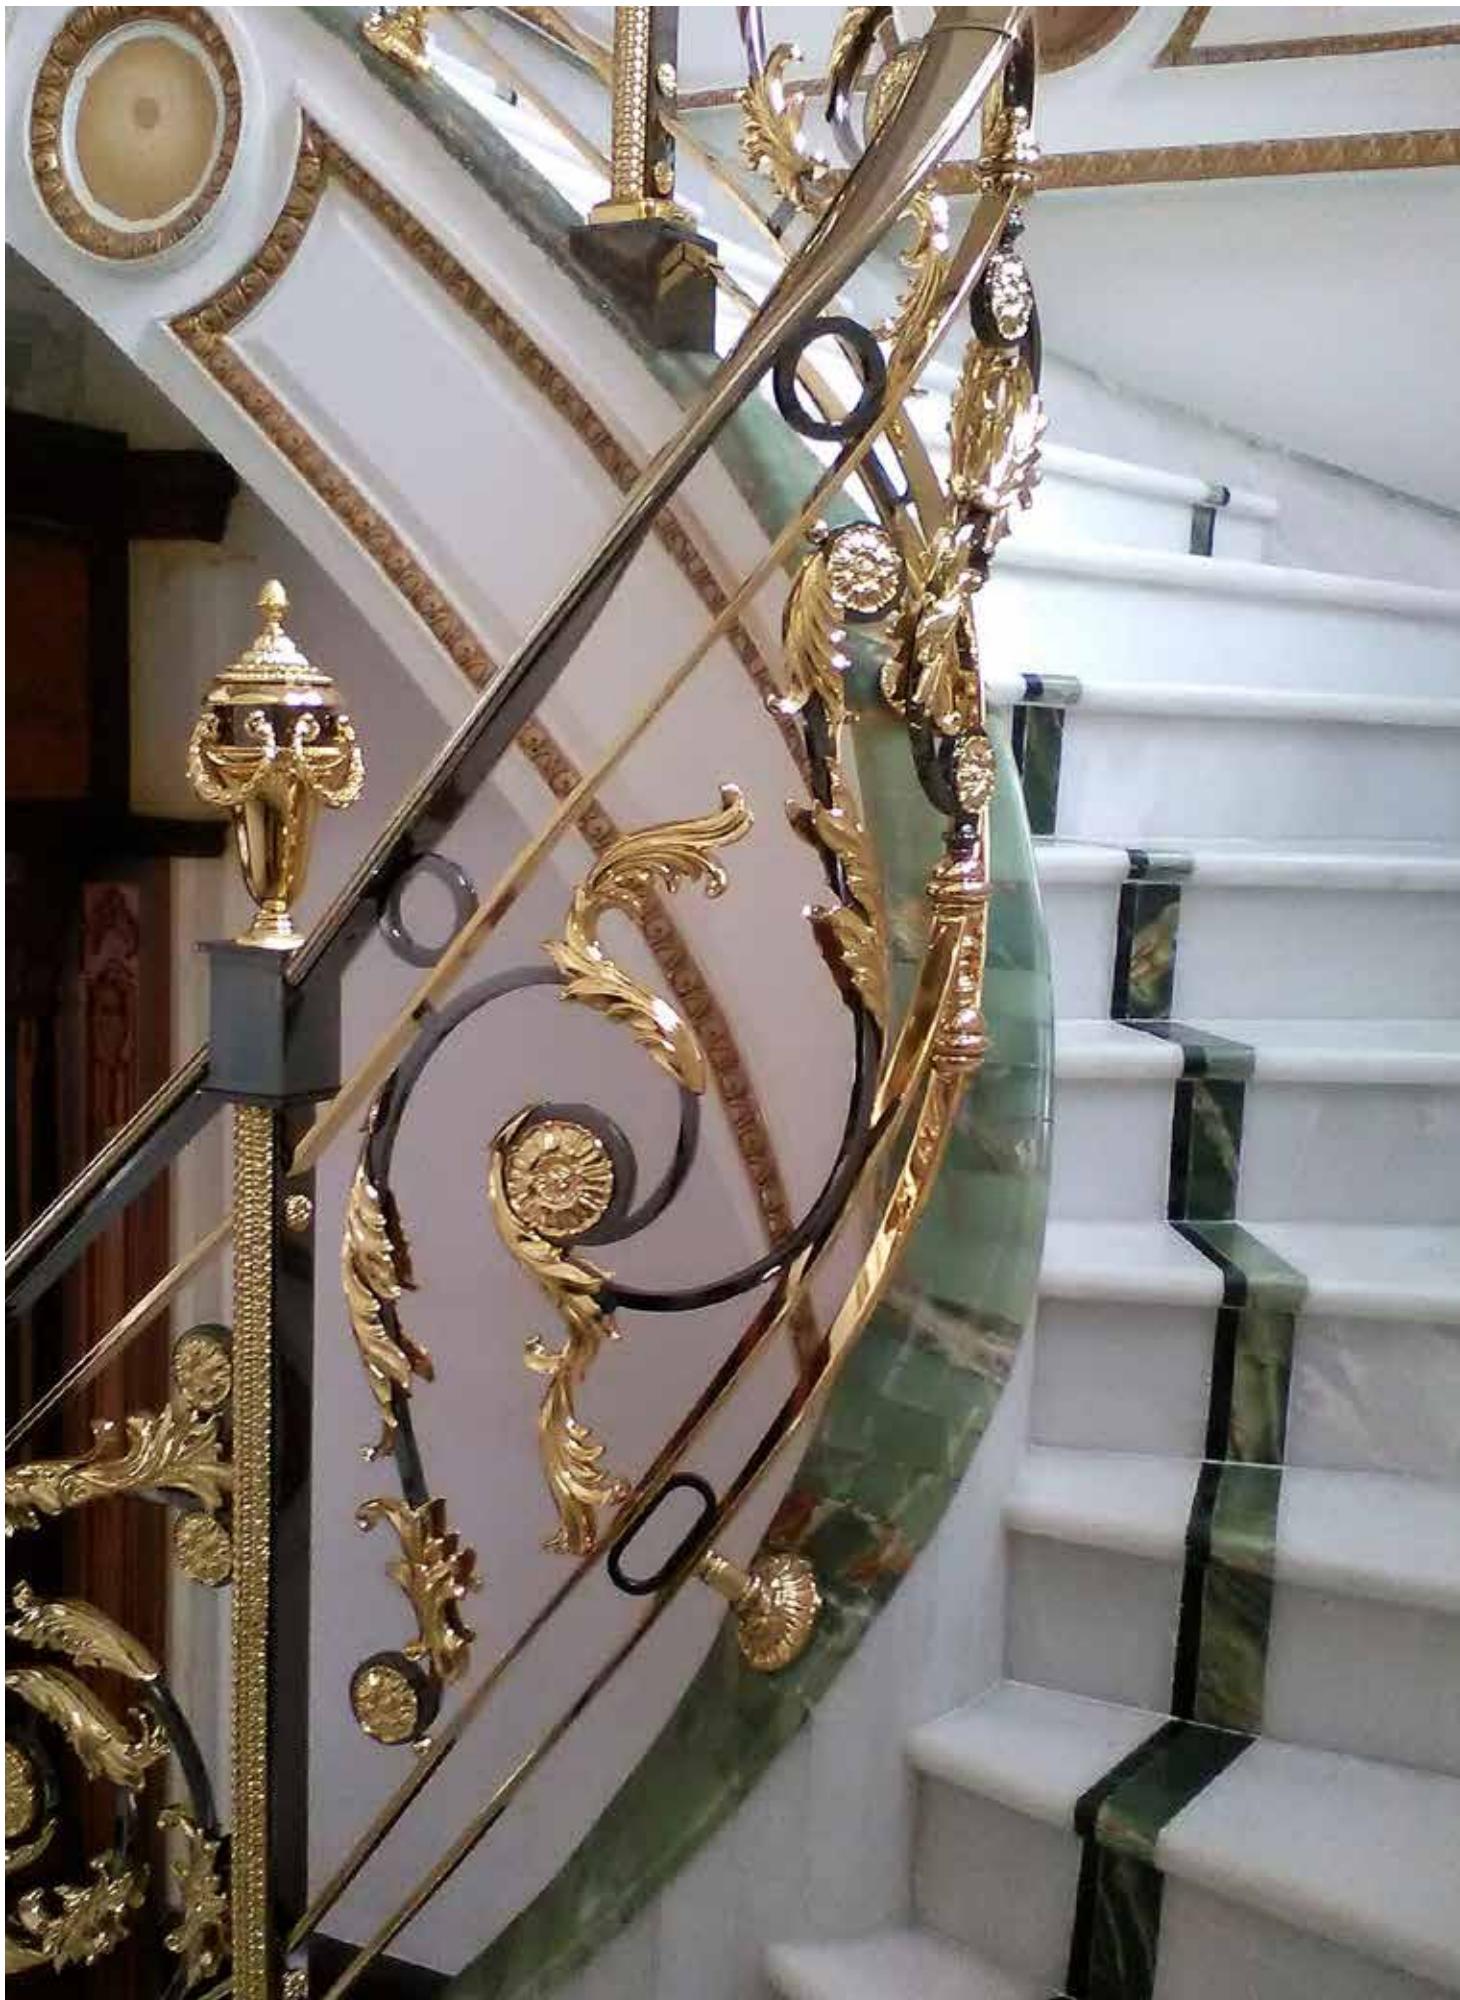

## BALAUSTRA MOD. SB21

Balastra in ottone, finitura bagno oro bianco satinato.  
Inserti in ottone anticato chiaro, medio e scuro.

## BALUSTRADE MOD. SB21

Brass balustrade, satin white gold plated finish.  
Details in antique brass (light, medium and dark).

# SB 17

## BALAUSTRA MOD. SB17

Balaustra in ottone, finitura cromo nero e bagno oro lucido.

Volute in barra curvata a caldo, con foglie, fiori e dettagli in fusione.

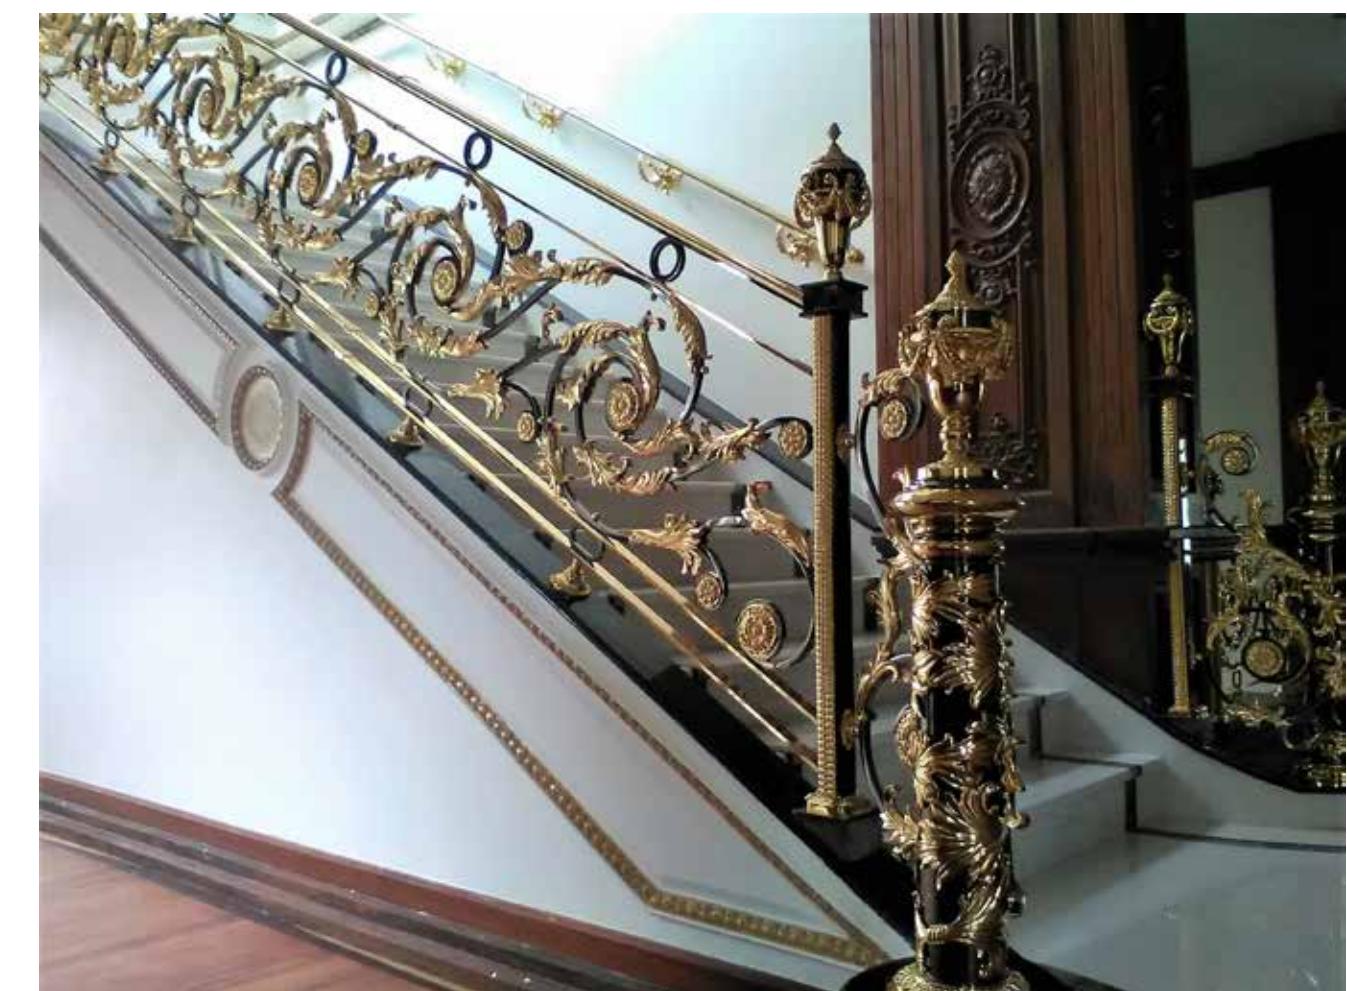

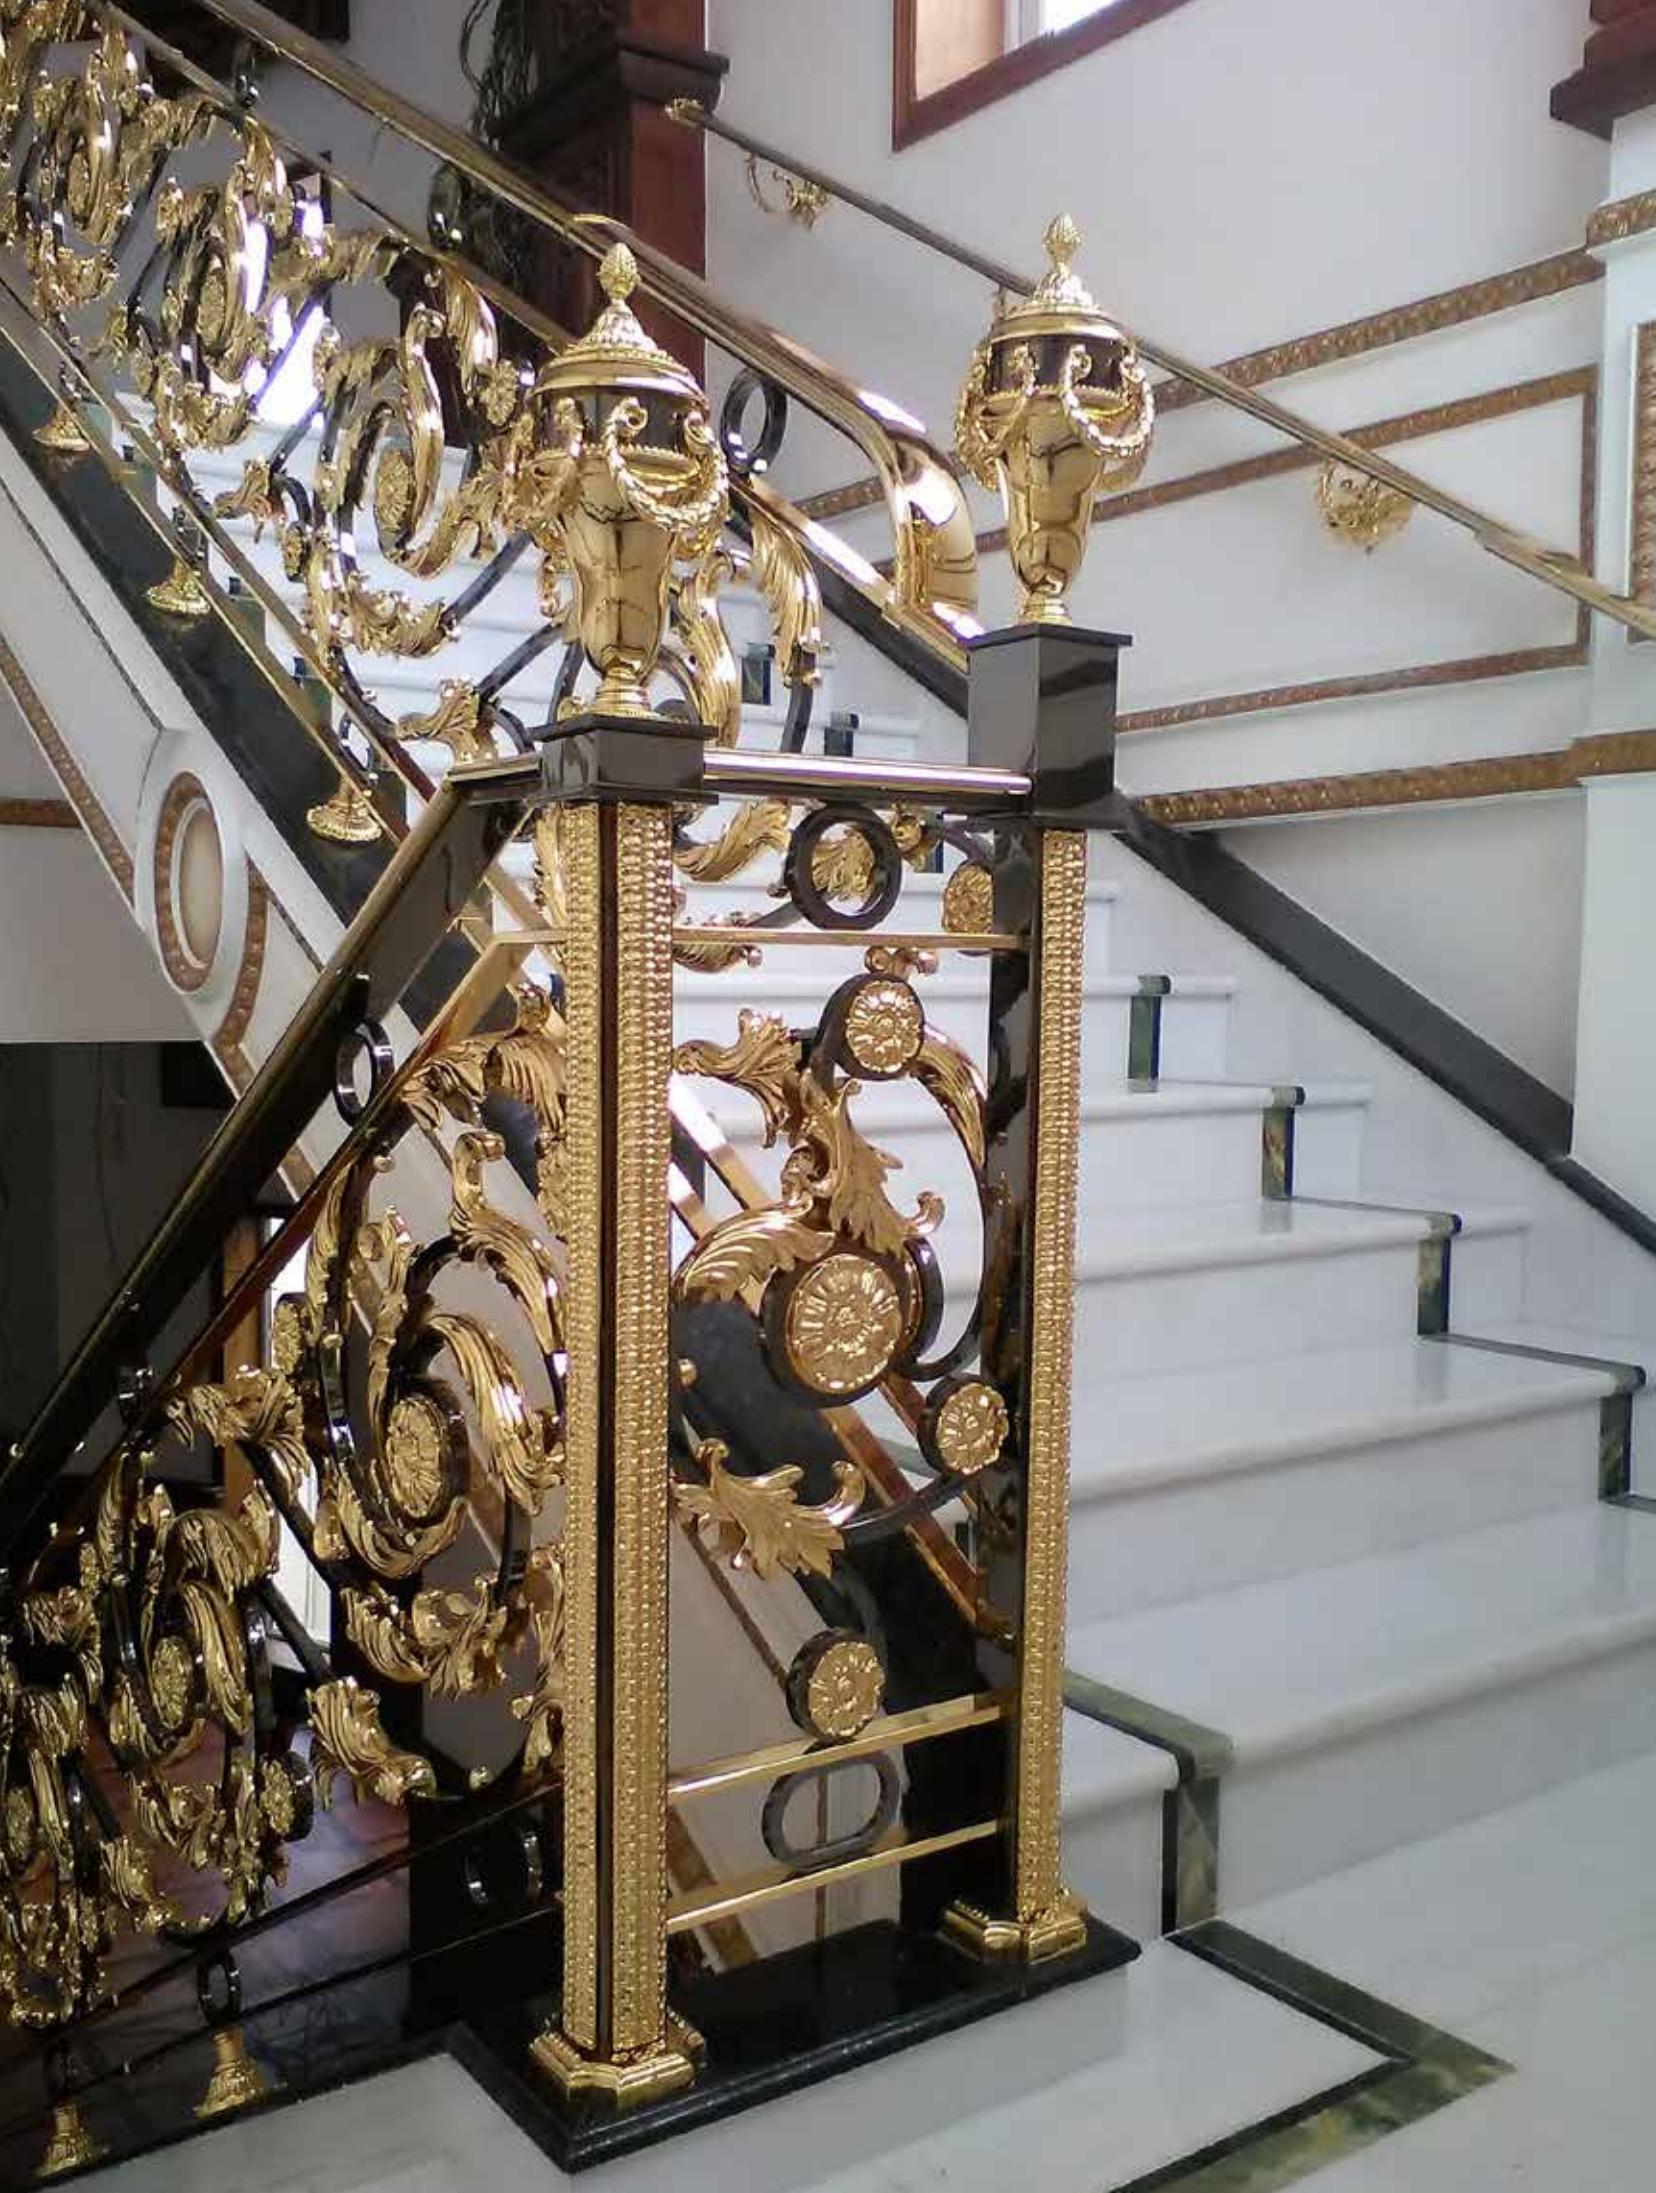

Corrimano in ottone massiccio.

## BALUSTRADE MOD. SB17

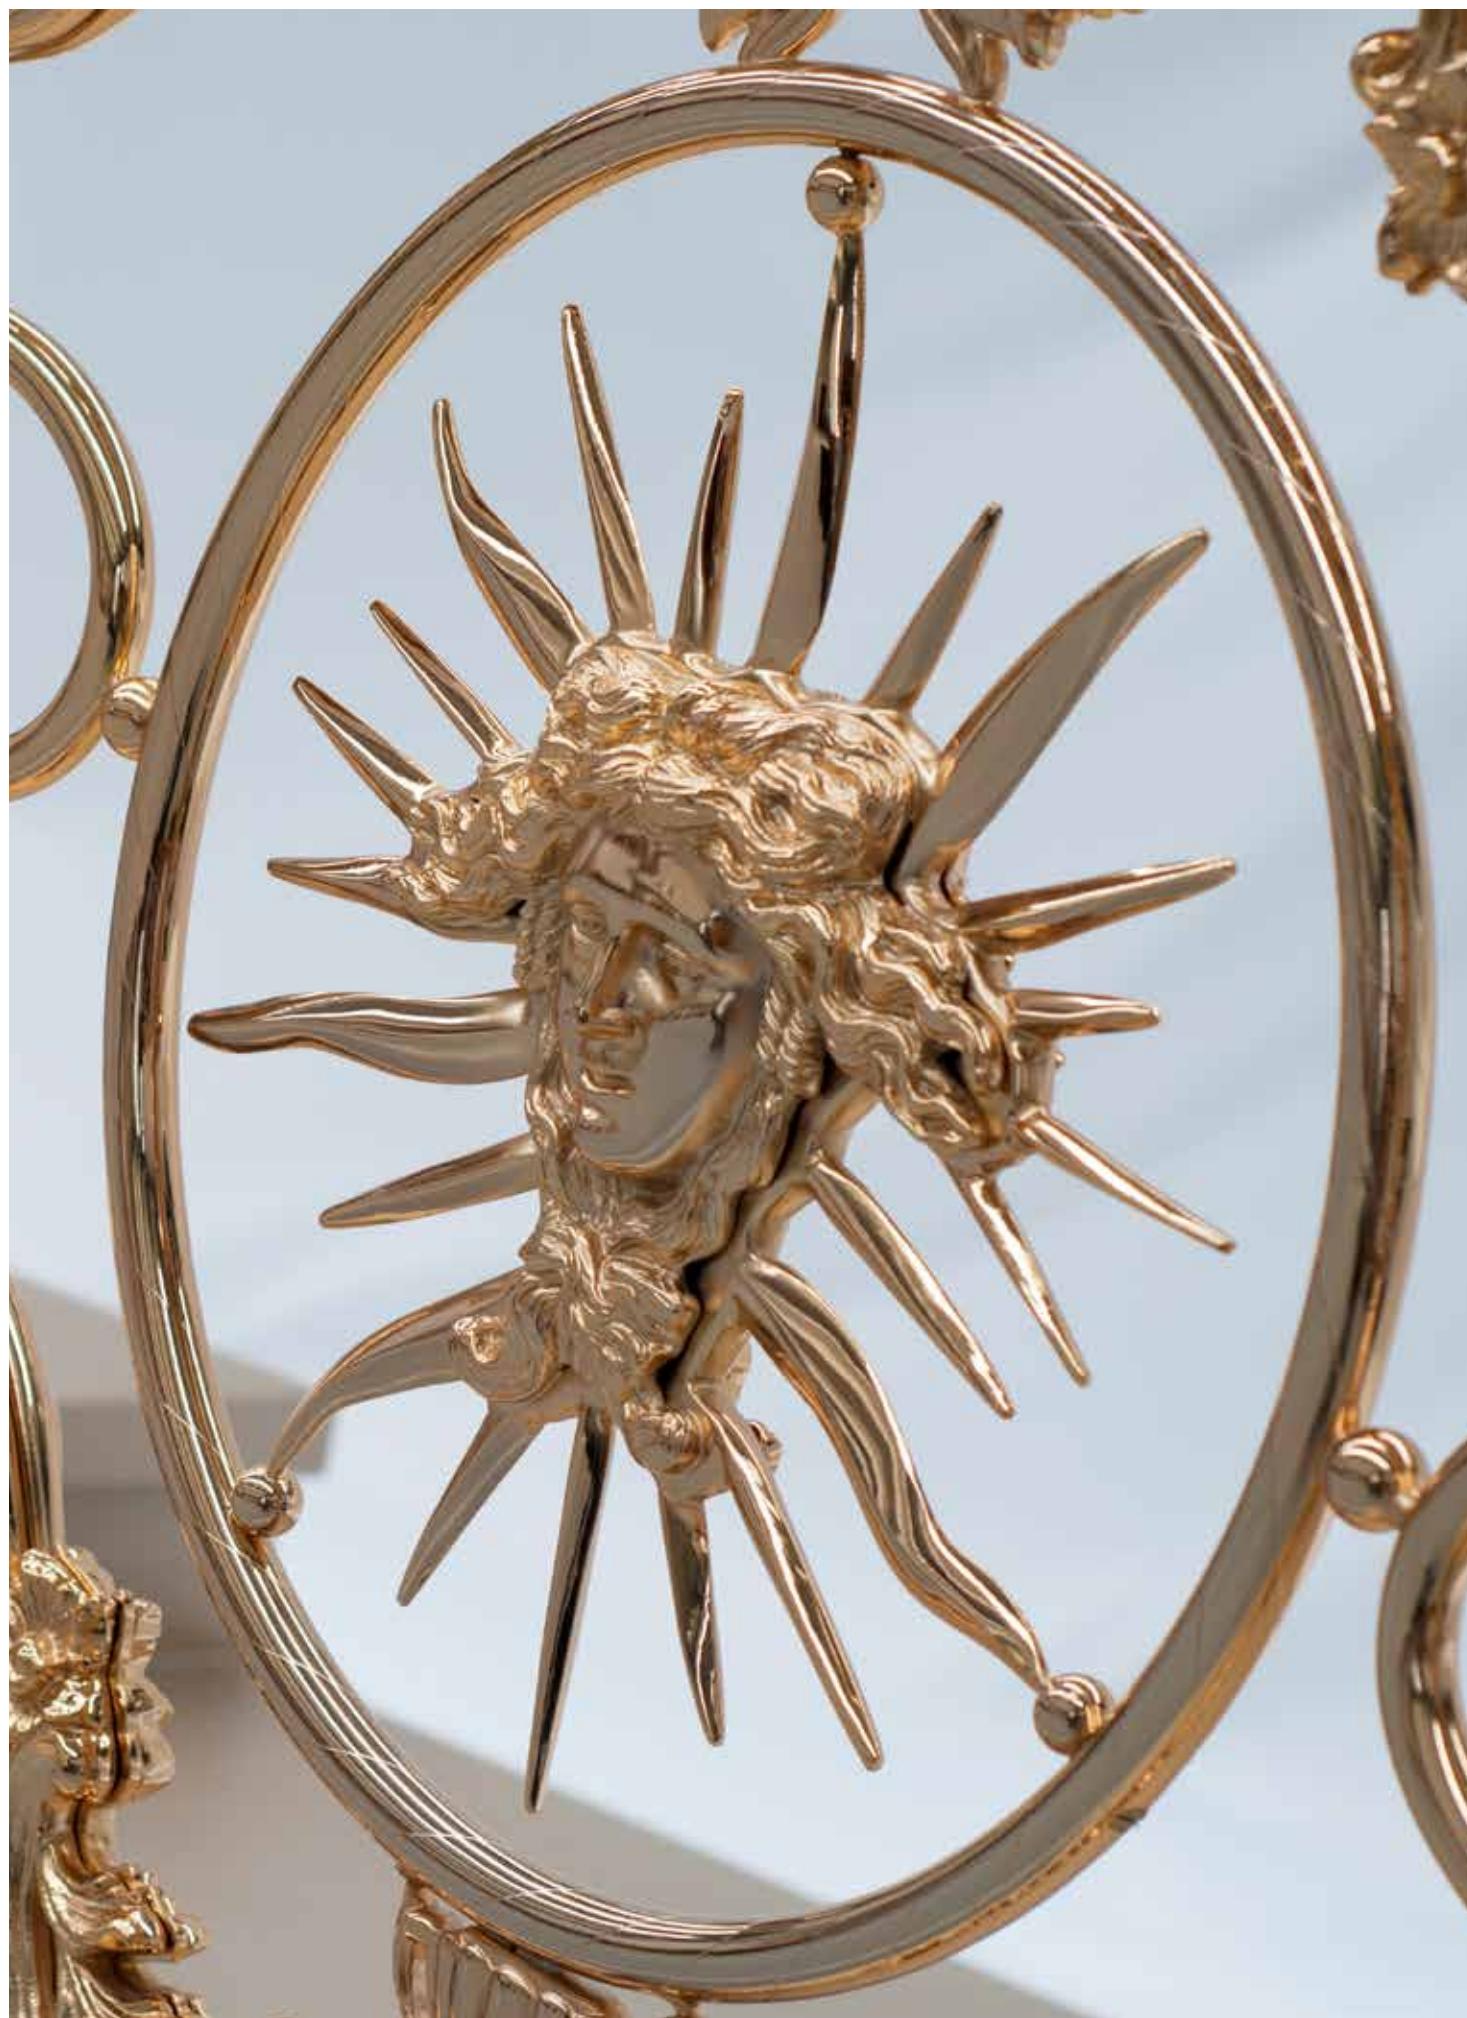

Brass balustrade, shiny black chrome and gold plated finish.

Curls in heat-curved solid square bar, with leaves, flowers and details in brass casting.

Handrail in massive brass.

## SB 16

### BALAUSTRA MOD. SB16

Balaustra in ottone, finitura bagno oro lucido.  
Un gioco di volute in barra tonda ed in fusione  
incornicia il viso del “Re Sole”, Luigi XVI finemente  
cesellato.

### BALUSTRADE MOD. SB16

Brass balustrade, shiny gold finish.  
A game of swirl and curls in round bar and brass  
casting frames.  
The face of the “Sun King”, Louis XVI finely  
chiseled details for an unique and precious creation.

Stairs Newel Mod. SN 16

## SB 15

### BALAUSTRA MOD. SB15

Balaustra in ottone, finitura bagno oro lucido e satinato.

Classiche spirali e volute in tubo tondo, impreziosite da decori, ghirlande e foglie in fusione.

Corrimano in ottone massiccio.

### BALUSTRADE MOD. SB15

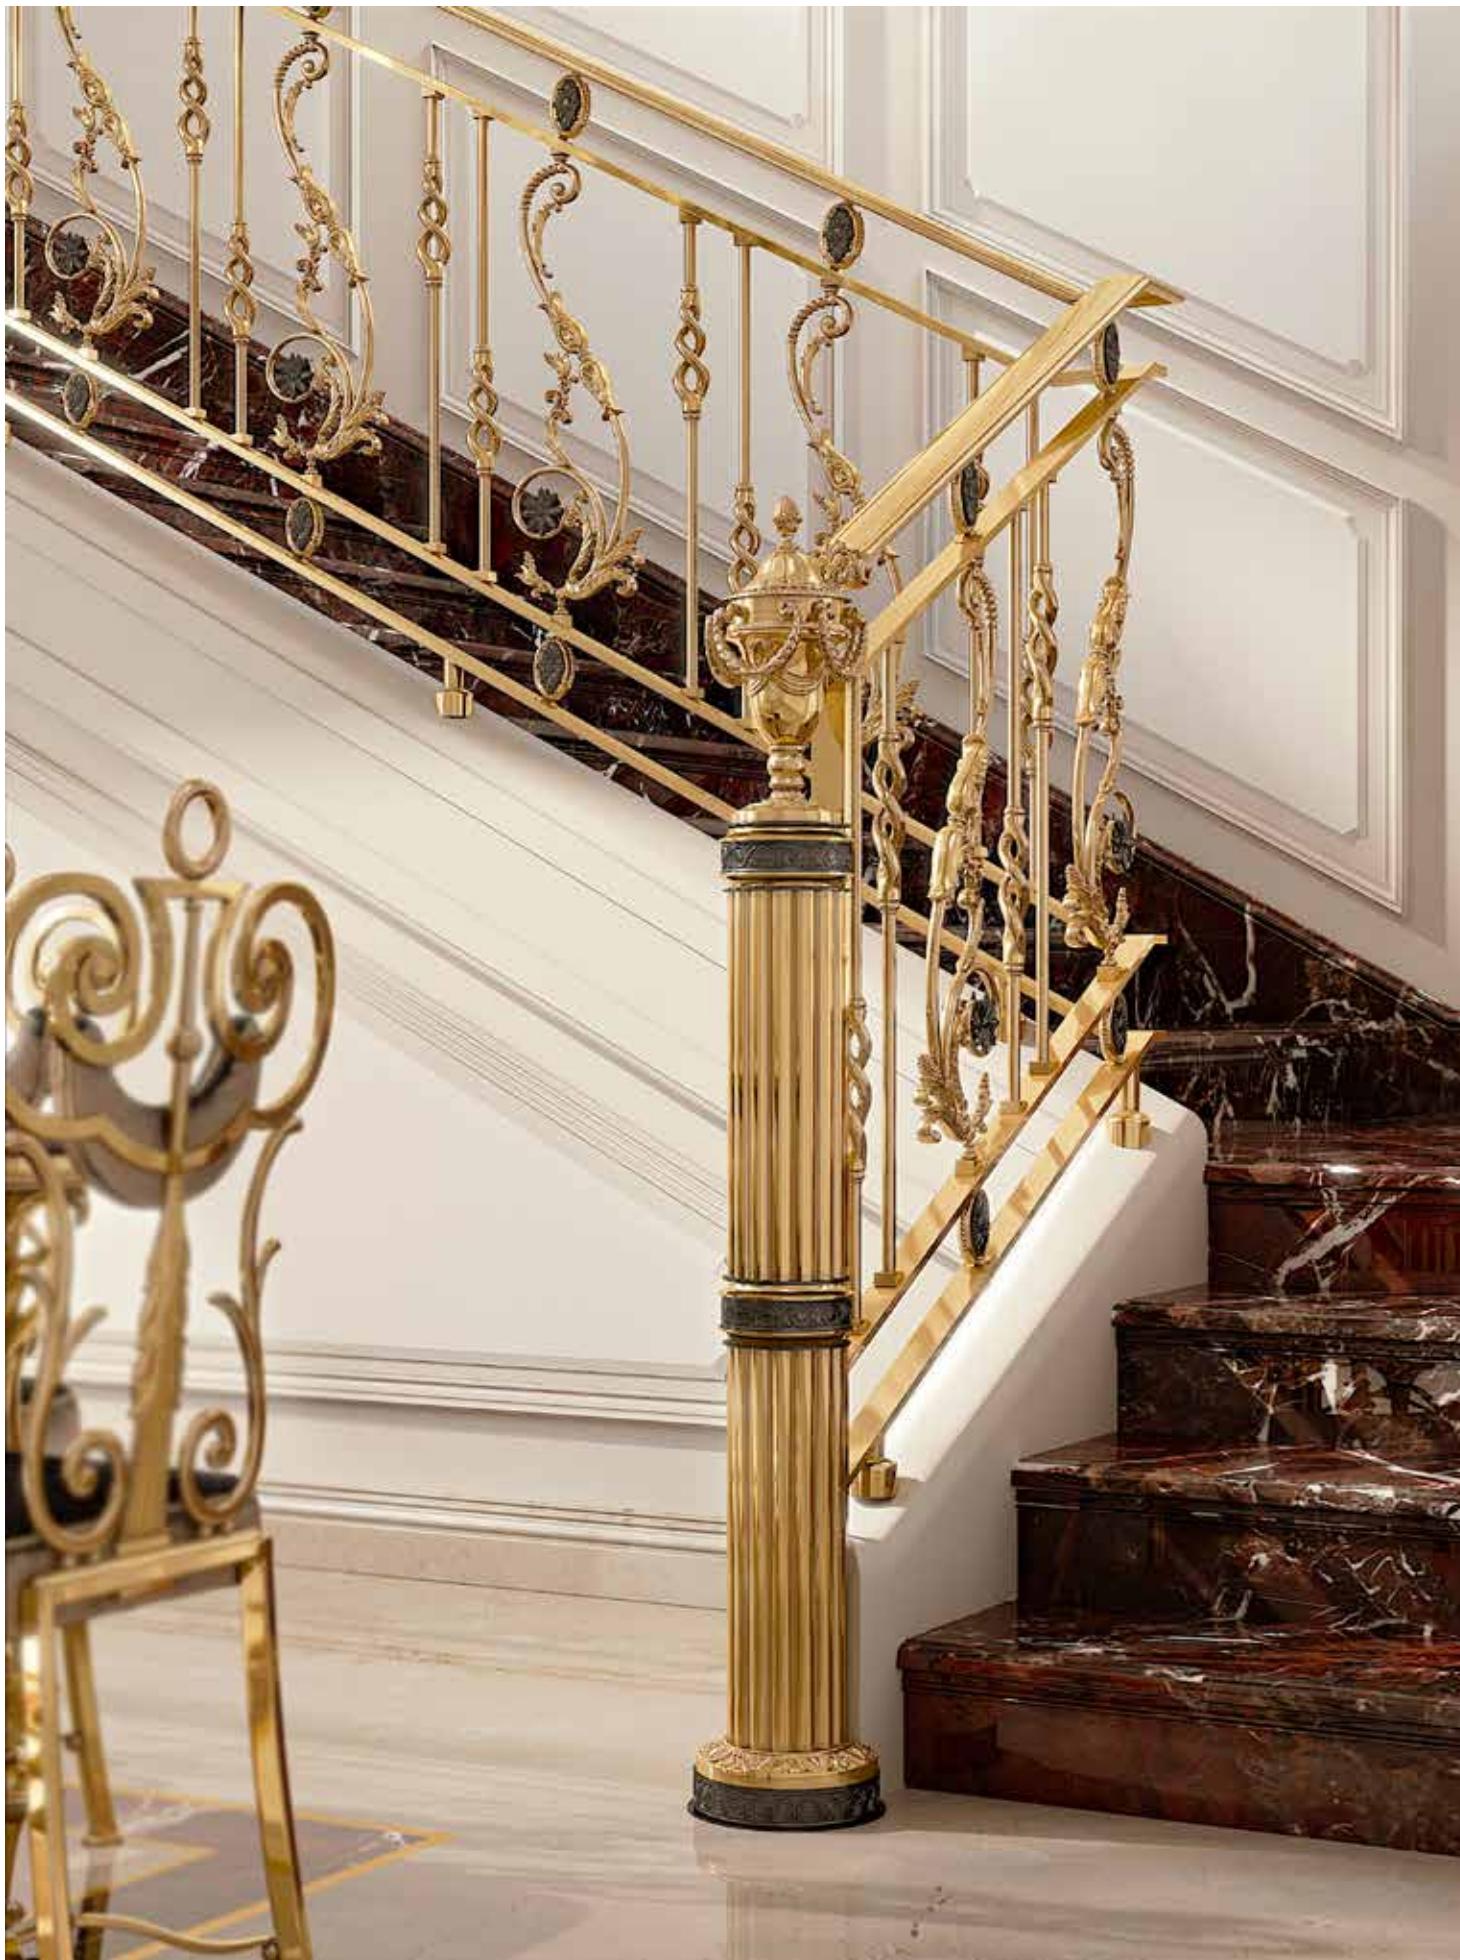

Brass balustrade, shiny and satin gold finish.

Classic spirals and curls in round pipes, embellished with decorations, leaves and garlands in brass casting.

Handrail in massive brass.

Stairs Newel Mod. SN 13

Stairs Newel Mod. SN 14 Vase

## SB 13

### BALAUSTRA MOD. SB13

Balaustra in ottone, finitura bagno oro lucido con dettagli in bagno nickel nero opaco.

L'armonia e l'eleganza delle fusioni con riccioli, foglie e colonnine con motivo a doppia spirale, rendono unica questa creazione.

### BALUSTRADE MOD. SB13

Brass balustrade, shiny gold plated finish, with matt black nickel details.

The harmony and elegance of leaves and curls combined with columns, make this creation unique.

## SB 13 light

### BALAUSTRA MOD. SB13 light

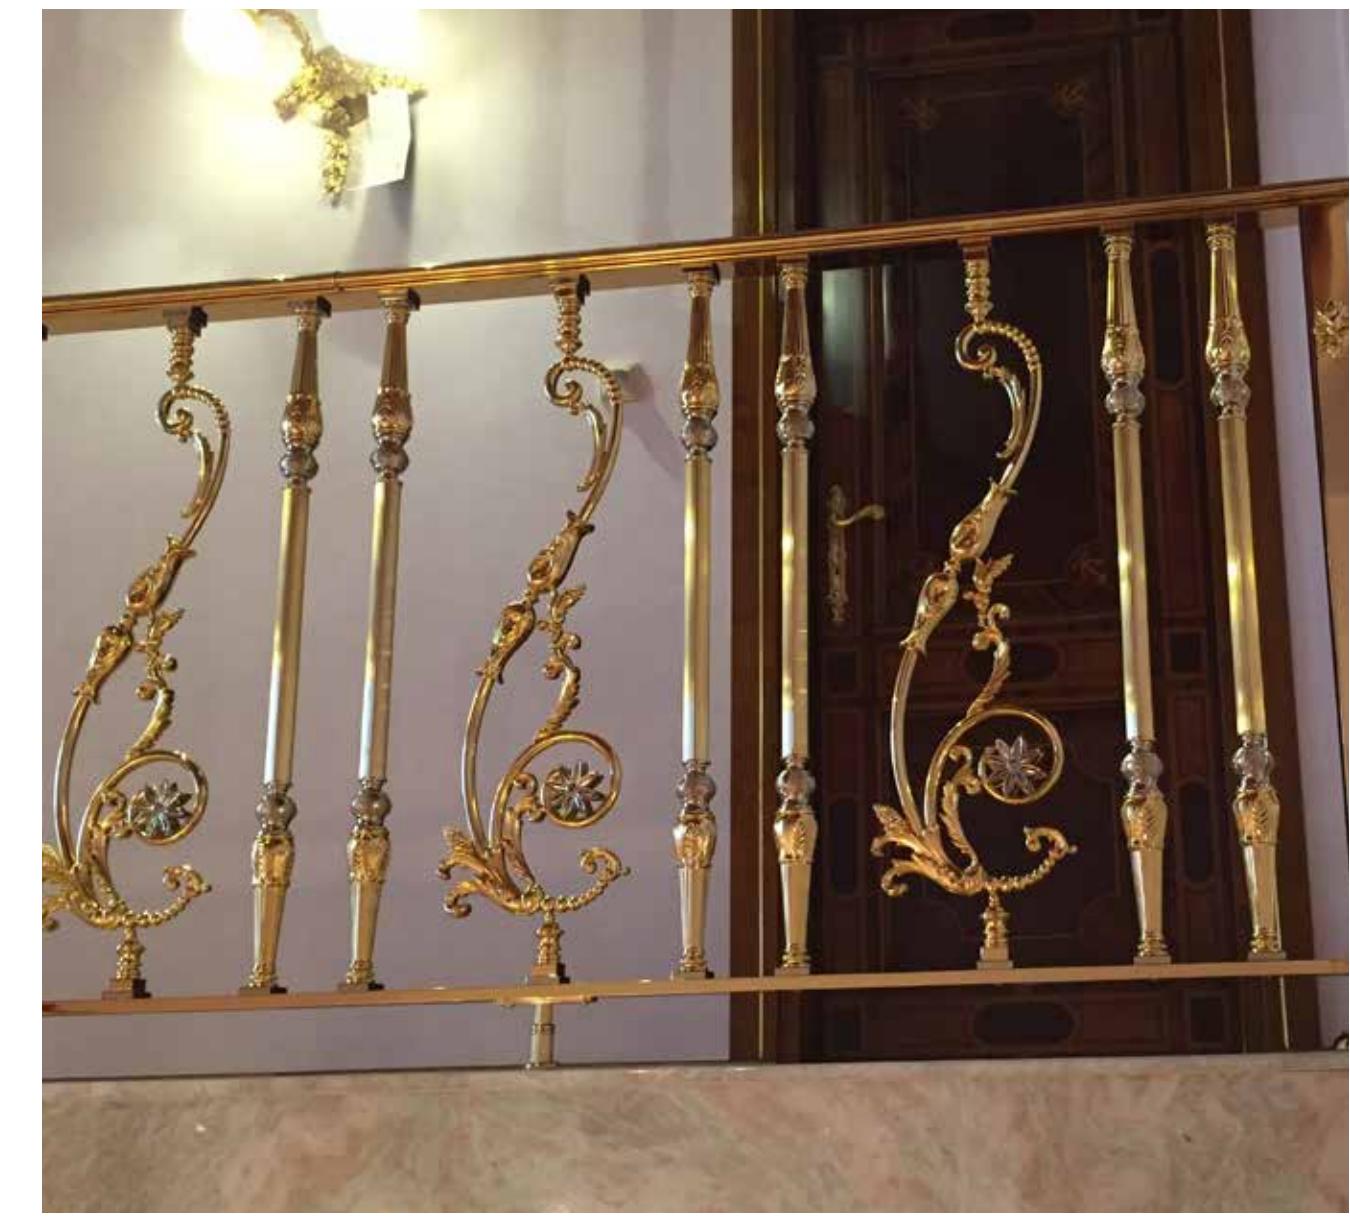

Balaustra in ottone, finitura bagno oro lucido con dettagli in bagno nickel nero opaco.

L'armonia e l'eleganza delle fusioni con riccioli e foglie abbinate a colonnine classiche per una "leggera" creazione.

### BALUSTRADE MOD. SB13 light

Brass balustrade, shiny gold plated finish, with matt black nickel details.

The harmony and elegance of leaves and curls combined with classic columns to get a slight creation.

## SB 12 Vases

### BALAUSTRADA MOD. SB12 VASES

Balaustre in ottone, finitura ottone lucido con dettagli in bagno nickel nero opaco.

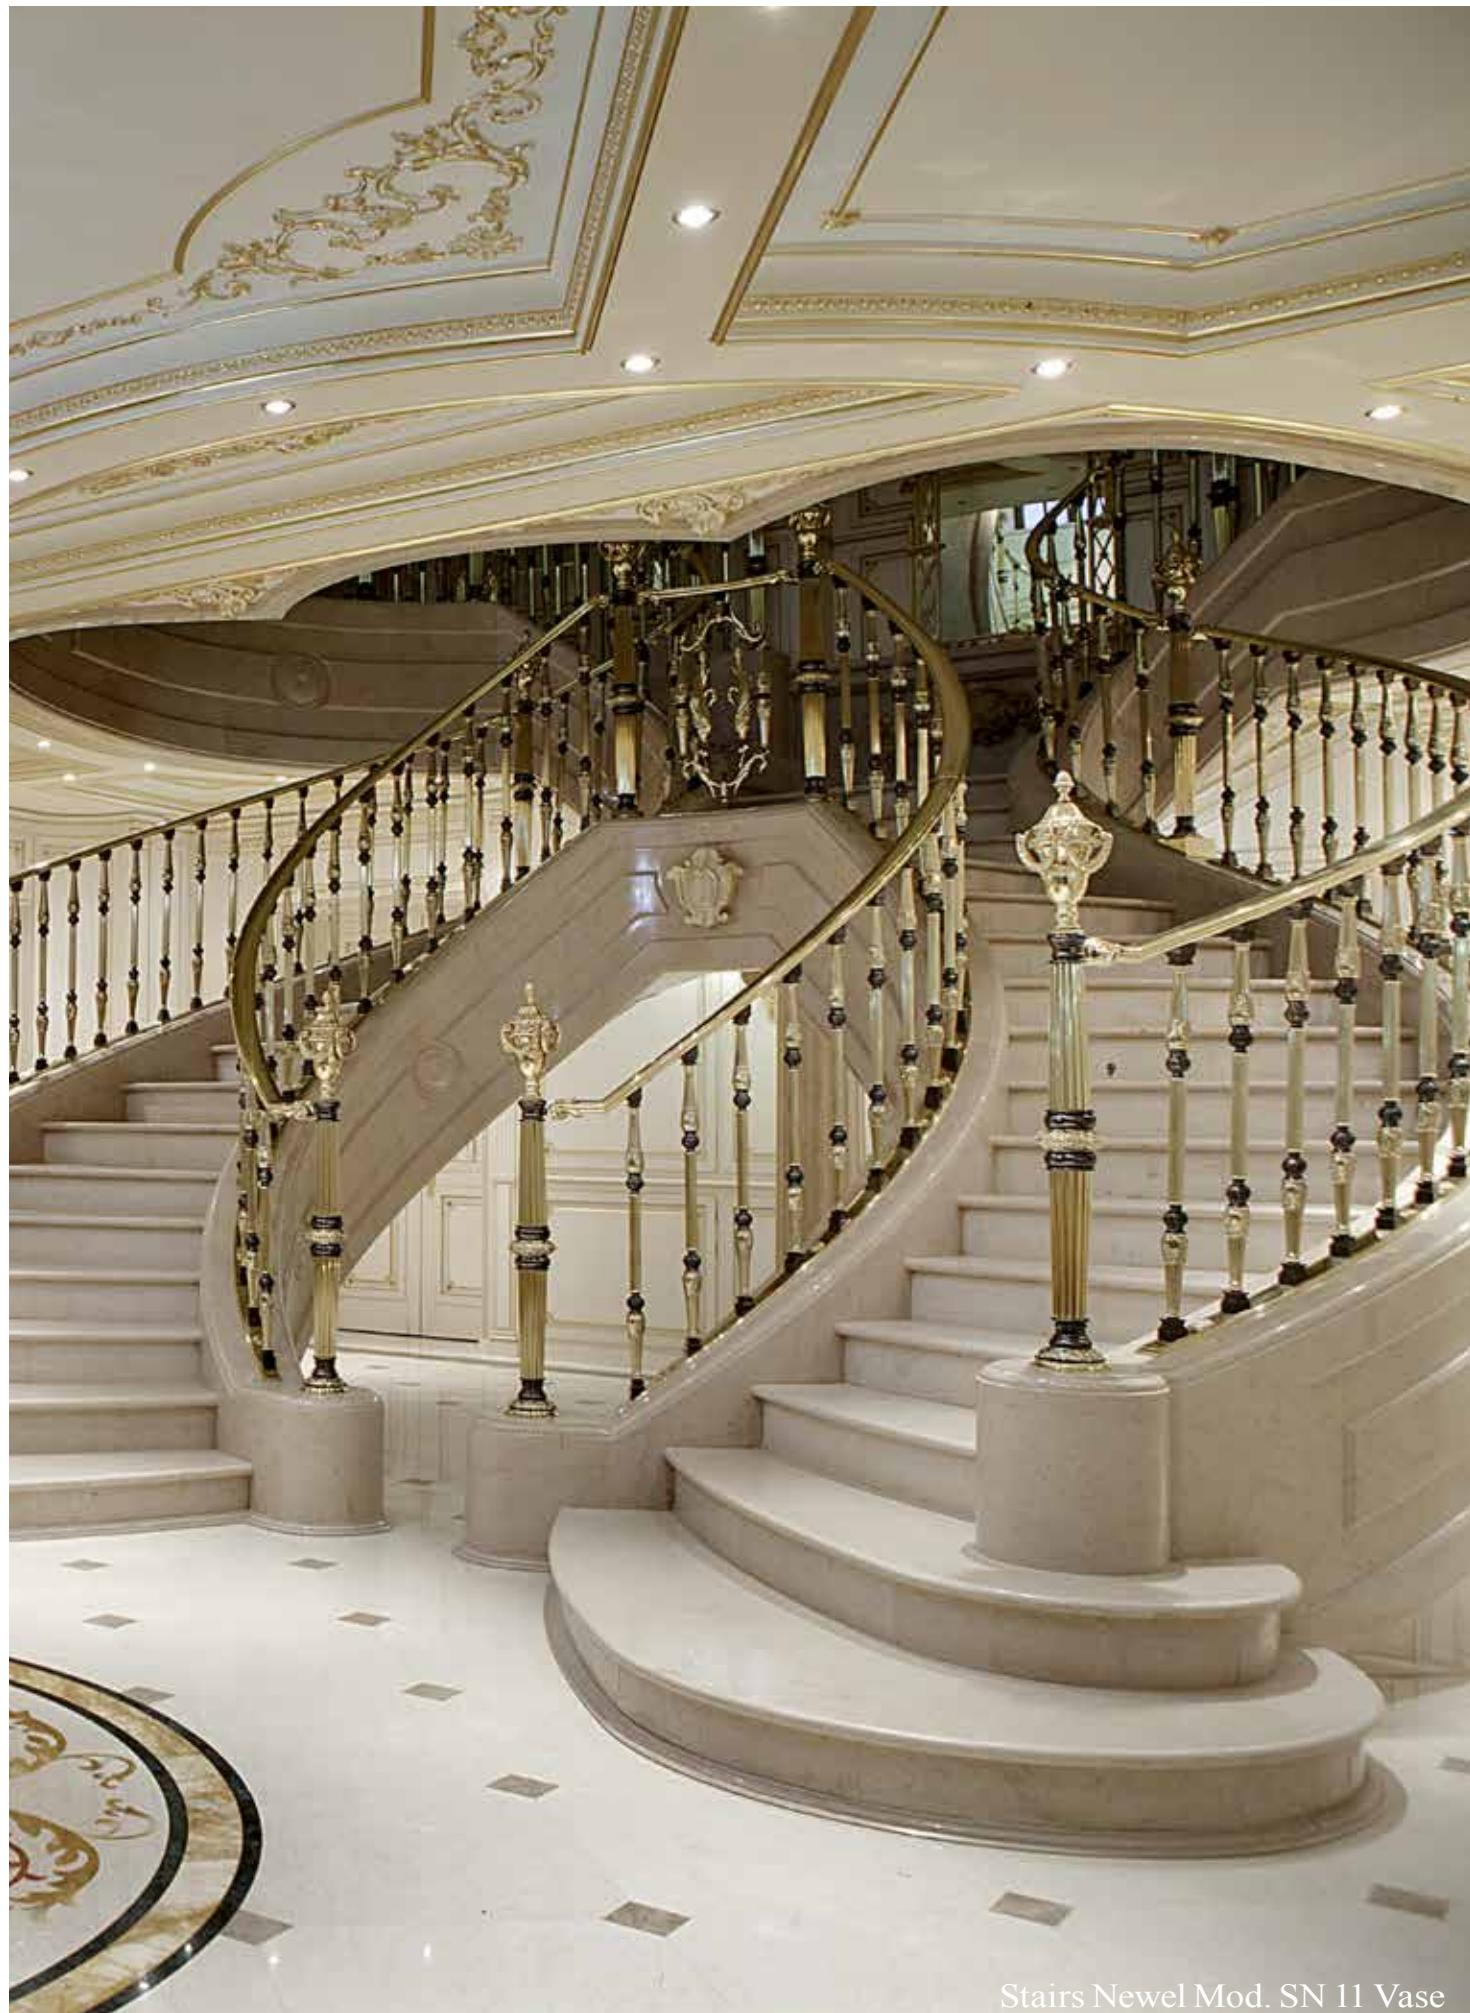

Eleganti colonnine alternate alla decorazione classica con il vaso delle spighe di grano.

### BALUSTRADE MOD. SB12 VASES

Brass balustrade, shiny brass finish with matt black nickel details.

Elegant columns alternated with the classic decoration with the vase of wheat ears, in brass casting.

Stairs Newel Mod. SN 11 Vase

## SB 11 Swans

### BALAUSTRA MOD. SB11 SWANS

Balaustra in ottone, finitura ottone lucido con dettagli in bagno nickel nero opaco.

Una fine scanalatura è presente nei tubi e nelle colonnine in fusione.

Il motivo caratterizzante della balaustra è rappresentato dalla coppia di cigni in fusione.

### BALUSTRADE MOD. SB11 SWANS

Brass balustrade, shiny brass finish with matt black nickel details.

The general reason is the groove, evident in the round pipes and in the conical columns in brass casting. But the main one is elegant pair of swans, in brass casting too.

## STAIRS NEWELS

### CAPISCALA

Creazioni uniche, realizzate con la combinazione di tubi speciali, raccordi e decorazioni in fusione, rifiniture in abbinamento con la balaustra.

### STAIRS NEWELS

Unique creations, carried out mixing special brass pipes, fittings and decorations in brass casting, and finely finished in combination with the balustrade.

“

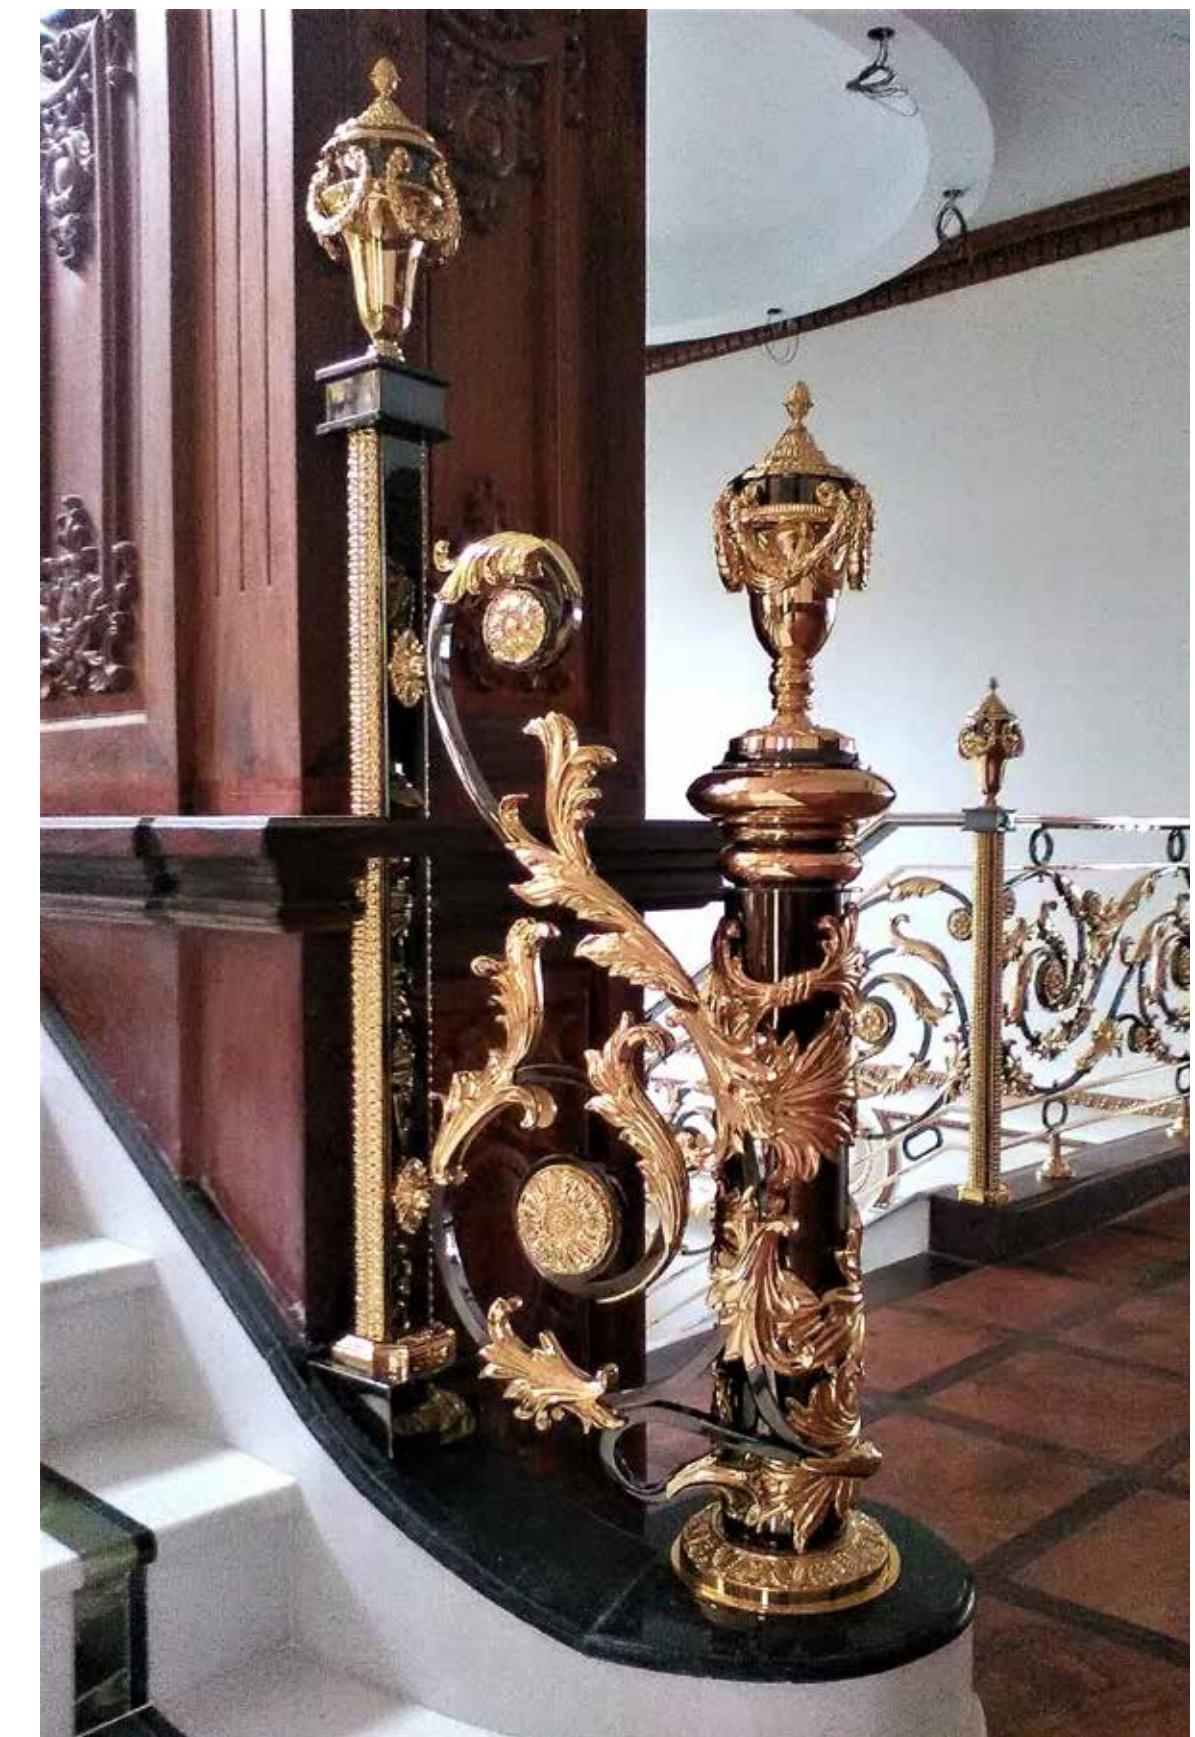

La cura non è solo nel dettaglio  
ma in tutta la struttura di cui  
esso ne è parte

Attention is not only paid to  
detail but to the whole structure  
of which it is part of

”
